

The Ohio Northern University array is a 2.0792 MW-DC photovoltaic solar array located in Northern Ohio. It features nearly 18,080 active tracking solar panels and is providing energy to Ohio Northern University for the next 25 years under an agreed upon power purchase agreement (PPA). AEP OnSite Partners built, owns, and operates this solar array.

FACTS AT A GLANCE

Project Name	Ohio Northern University	MW-DC	2.0792
Project Location	Ada, OH	MW-AC	1.67
Status	Operating	Tracking/Fixed Tilt	Tracking
Commercial Operation	December 2016	Panel Count	18,080
EPC	Gem Energy	Panel OEM	First Solar
Owner	AEP Onsite Partners	Inverter(s)	1.67 MW
Operator	AEP Onsite Partners	Inverter OEM	SMA America
Customer	Ohio Northern University	PPA	Yes
Project Type	Solar PV	PPA Length	25 Years
